Yohanes Mulugeta

Full Stack Software Engineer

jplussince34@gmail.com 0962579755 Ethiopia, Addis Ababa LinkedIn

EDUCATION

Computer Science Ethiopia, Addis Ababa
Admas University
B.Sc. in Computer Science Admas University | Expected Graduation: 2030
Focused on software development, algorithms, and system design, with hands-on experience building full-stack applications using React, Node.js, and TypeScript.

EXPERIENCE

Fullstack Development 2026 – Present
Axis Connect Software Company Ethiopia, Addis Abeba
Building and maintaining full-stack applications at AXIS Connect, contributing to ERP, school management, and clinic management systems. Collaborating with senior developers and leveraging AI-assisted tools to improve development efficiency, code quality, and problem-solving.

Fullstack Development 05/2025 – 01/2026
Geez Security Ethiopia, Addis Ababa
Developed full-stack web applications at Geez Security, including security management systems and a student lab platform supporting **Ethiopia's first cybersecurity course**. Built and maintained frontend and backend features, optimized performance, and delivered reliable, production-ready solutions.

PROJECTS

Clinic Management System 2025 – 02/2026
Hulu Care Clinic Management System
Developed a full-stack clinic management platform for Hulucare Dermatology and Skin Care Clinic, digitizing patient care, laboratory, prescriptions, procedures, inventory, and billing. Supported **100+ patients and 18+ doctors**, reducing inventory consumption and equipment wastage by **20%** through improved tracking. Implemented role-based access control and automated workflows to streamline clinical operations.

Yegna Pay 06/2025 – 04/2026
Built Yegna Pay, an API-based payment verification platform for Ethiopian businesses, automating transaction validation in **0.5 seconds** and addressing **90% of common payment verification needs** through transaction ID matching, amount validation, and duplicate detection.

TECHNICAL SKILLS

Frontend
Javascript, TypeScript, React, Motion Dev, Next Js, Astro JS, Tailwind Css

ORM
Prisma

Cloud & Deployment
Vercel, Render, Supabase, Neon, Cloudinary , Cloudflare

Backend
Backend Development Technology Stacks Node Js, Express Js, Nest Js, Postgresql, NoSql, MongoDB , REST APIs / RESTful APIs , **WebSockets**

Dev Ops & Tools
Github, Gitlab, CI/CD , Docker

Authentication & Integration
JWT, OAuth 2.0, WebSockets, Payment APIs

LANGUAGES

English
Professional

Amharic
fluent
