

YOHANES MULUGETA

Full-Stack Developer

+251962579755 @ jplussince34@gmail.com

EXPERIENCE

Full-Stack Developer

Geez Tech (Security)

12/2025 - Present Location

- Contributed to the first Ethiopian Cybersecurity course by designing and implementing the student Cybersecurity Testing Lab
- Engineered 10+ intentionally vulnerable environments for the first Ethiopian Cybersecurity course, facilitating hands-on training for 100+ of students

My Own Project

VeroDev

09/2025 - 02/2026 Location

- Developed an AI engine that processes GitHub data to generate skill insights, reducing the time for recruiter screening by providing instant 'AI verdicts' on developer code
- Developed a Netflix-style movie web application using React and Vite, featuring dynamic movie listings, responsive UI, and integration with an external movie database API

Participant

AfroChain

2025 Location

- Participant, AfroChain Blockchain Hackathon 2025
- Collaborated in a team environment to explore blockchain-based solutions
- Gained hands-on exposure to decentralized technologies
- Built problem solving skills under time constraints

EDUCATION

Computer Science

Admas University

2030 Location

- Expected Graduation:
- Currently pursuing studies in Computer Science / Software Engineering

PROJECTS

Full-Stack Developer

12/2025 Geez Tech (Security)

Contributed to the first Ethiopian Cybersecurity course.

- Contributed to the first Ethiopian Cybersecurity course by designing and implementing the student Cybersecurity Testing Lab.
- Engineered 10+ intentionally vulnerable environments for the first Ethiopian Cybersecurity course, facilitating hands-on training for 100+ of students.

SUMMARY

Aspiring Full-Stack Developer and Real world problem solver with experience creating real-world projects including dashboards, e-commerce flows, and admin systems. Strong foundation in React, Next.js, Tailwind CSS, TypeScript, and backend development with Node.js. Seeking a paid internship to sharpen skills, collaborate with professionals, and build production-ready software
